“How can we address and prevent veteran homelessness in our Communities?”

Hi, my name is Ozzy Topham and I want to discuss problems that homeless veterans face. I know how to fix some of these problems. These veterans need water, food, and money.

First of all, I am going to get homeless veterans water. I would have a fundraiser to get 100 bottles of war. They only cost $3.00 at the store. I would get volunteers to help. They could also take the water to the homeless veterans.

Secondly, after watching the videos about homeless veterans, I realized that many homeless veterans are going hungry. I could start a food drive. Hopefully, people would volunteer to help with this too. They could help with the food drive and deliver food to these hungry veterans. By not being hungry any more, these veterans will feel much better.

Lastly, I could raise money to help with other needs. I could try to raise money through donations. These could help with personal needs. I would get volunteers to help with raising the money. They could also take these homeless veterans shopping to get the things they need to take care of themselves.

In conclusion, I know that helping homeless veterans with getting water, food, and money for personal needs is important. As I watched the videos about homeless veterans, I felt sad and felt bad for them. I knew that someone needed to help them. I am going to do my part and I hope that everyone else will too because these homeless veterans have helped us by serving their country.
